Happy New Year!

General and Subcontractors Converge

Every now and then there's a major event in the St. Louis construction industry that is too good to pass up. At the very top of that list is the ASA Midwest Council's "Meet the GC's" Expo. General Contractors will be setting up displays in order to inform and

attract the highest quality subcontractors. Of course those would be ASA members. Though local ASA members do receive a period of exclusive participation, the event is open to the entire St. Louis construction community. Rarely do the combination of these parties converge in such an upbeat, high profile forum such

as this.

There is still attendance space available by contacting Reba at (314)214-1664. If there was ever a construction industry event you didn't want to miss this would be it. Make your reservation and please look for our personnel that will be in attendance. See you at the St. Charles Convention Center January 26th!

Fact of Steel

The rebar used in concrete is virtually 100% recycled from metal products. More than 7 million tons of scrap steel is recycled into reinforcing bars annually.

Famous Quote

"My reading of history convinces me that most bad government results from too much government!"

Thomas Jefferson

Steel Watch

After the \$85/ton hike in steel prices for December, the mills have announced another \$85/ton increase for January! Look out for February's increase as the harsh winter has taken scrap supplies to new lows, not to mention the looming spring demand for steel on the horizon.
