ASFI Supporting Political Action

Many people express opinions concerning the political winds. They don't always put actions to their words. ASFI feels very strongly about the goals of the American Subcontractors Association PAC and actively supports their efforts. This month on July 30th ASA will have their annual clay bird shoot at the Blackhawk Hunting Club. Anyone interested should visit the ASA website, www.asamidwest.com. This is always a well attended, highly anticipated event. We would love to see you there and witness your keen shooting eye firsthand.

Steel Watch

Scrap prices remained stable in July. The steel mills did not change their pricing. However, inventories at the mills reached a new low creating speculation of future price increases. Stay tuned.

Famous Quote

"The fact that we are here today to debate raising America's debt limit is a sign of leadership failure. It is a sign that the U.S. Government can't pay its own bills. It is a sign that we now depend on ongoing financial assistance from foreign countries to finance our government's reckless fiscal policies... Increasing America's debt weakens us domestically and internationally. Leadership means that "the buck stops here". Instead, Washington is shifting the burden of bad choices today onto the backs of our children and grandchildren. America has a debt problem and a failure of leadership. America deserves better."
